Attorney Docket No. 016891-0857

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Mitsusa TAKAHASHI
Title: METHOD FOR MANUFACTURING THIN FILM
TRANSISTOR
Application No.: 10/617,170
Filing Date: July 11, 2003
Examiner: Anya, Igwe U.
Art Unit: 2825

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicant in order to comply with Applicant's duty of disclosure pursuant to 37 CFR §1.56.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed document is being submitted in compliance with 37 CFR §1.97(i), and is being submitted after the payment of the issue fee, but before the issuance of the patent. In accordance with the provisions of 37 CFR §1.97(i), the reference will be put in the file at the PTO, but will not be considered.

RELEVANCE OF EACH DOCUMENT

Any documents listed on the attached PTO/SB/08 were cited as being relevant during the prosecution of the corresponding Japanese application. Item of information A1, A2 and A3 are U.S. patents that is a counterpart to item of information A4. The absence of a translation or an English-language counterpart document does not relieve the PTO from its duty to consider any submitted document (37 CFR §1.98 and MPEP§609).

A translation of a portion of a Japanese Office Action that issued January 4, 2005 with respect to a counterpart Japanese patent application is provided below.

“Reasons 1-2

Claims 1-4
References 1-2

Remarks

Regarding Claims 1, 3-4

Please especially refer to Paragraphs 19-43 of Reference 1.

Regarding Claim 2

The injection conditions for the invention of Reference 2 (Dose 1×10^{12} - 1×10^{17} atoms/cm², acceleration voltage 5-80 eV) are the same as the working example cited in the concise explanation of the subject invention. Hence, the quasi-fermi level ration is understood to be in the range of 0.5 – 2.0.

Index of Cited References

1. JP 2002-107760
2. JP 11-087731”

Applicant's statements regarding the Japanese Office Action are based on a partial translation that Applicant's representative obtained. These statements should in no way be considered as an agreement by Applicant with, or an admission of, what is asserted in the Japanese Office Action.

STATEMENT

The undersigned hereby states in accordance with 37 CFR §1.97(e)(1) that each item of information contained in this information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to filing of this Statement.

Respectfully submitted,

Date March 29, 2005
